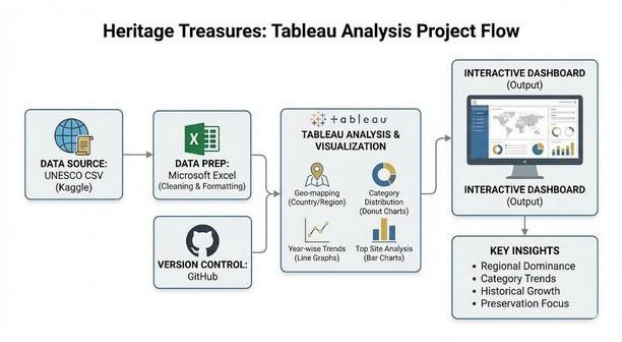
| Project Name | Heritage Treasures: An In-Depth Analysis of UNESCO World Heritage Sites using Tableau |
| Maximum Marks | 4 Marks |

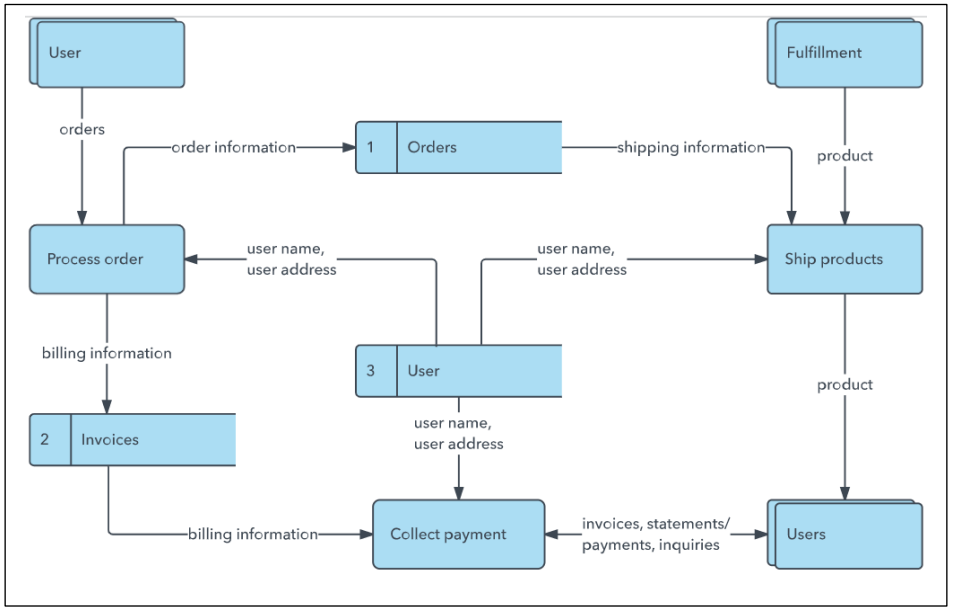
## Data Flow Diagrams:

A Data Flow Diagram (DFD) is a traditional visual representation of the information flows within a system. A neat and clear DFD can depict the right amount of the system requirement graphically. It shows how data enters and leaves the system, what changes the information, and where data is stored.

**Example: [(Simplified)]**



Example: DFD Level 0 (Industry Standard)



## User Stories

Use the below template to list all the user stories for the product.

| User Type | Functional Requirement (Epic) | User Story Number | User Story / Task | Acceptance criteria | Priority | Release |
|---|---|---|---|---|---|---|
| Data Analyst | Data Collection | USN-1 | As a data analyst, I want to collect UNESCO World Heritage site data from reliable sources so that accurate analysis can be performed. | Dataset is collected and available in structured format. | High | Sprint-1 |
| Research user | Data Pre-processing | USN-2 | As a research user, I want to clean and preprocess the UNESCO dataset to remove missing and duplicate values | Cleaned dataset is ready for analysis | High | Sprint-1 |
| Public user | Data Analysis | USN-3 | As a public user,I want to analyze UNESCO heritage sites based on region, category, and year of inscription. | Analysis results are generated correctly | Medium | Sprint-2 |
| Bussiness user | Data Visualization | USN-4 | As a business user, I want to view interactive dashboards showing global distribution and endangered heritage sites | Dashboards are interactive and display | High | Sprint-1 |
| Data Extraction | Web Integration | USN-5 | As a research user, I want the Tableau dashboards to be integrated into a web page for easy public access. | Dashboards load successfully on the web | Medium | Sprint-2 |
| Business User | Endangered Site Analysis | USN-6 | As a business user, I want to view analysis of endangered heritage sites by country and region. | Endangered site dashboards show accurate country-wise data. | High | Sprint-1 |
| Public user | Interactive Exploration | USN-7 | As a public user, I want to interactively explore UNESCO heritage dashboards to understand global heritage distribution | User can filter and explore dashboards without errors. | Medium | Sprint-2 |
